

## Instructions for GenEDITS Plus 5

### Installation procedure

You will need to run the installer with Administrator privileges to install GenEDITS Plus 5. For versions of Windows starting from Windows 7 onwards, a user can run the installer as Administrator by right-clicking the installer, selecting Run as Administrator, and entering the user ID and password for their Administrator account.

### Steps to install:

- Click Next on the first information screen
- Select the folder to install GenEDITS Plus 5 to, then click Next
- Select a shortcut name and folder, then click Next
- Select whether to create a desktop icon, then click Next
- Click Install to confirm settings and begin installation
- Click Finish to finish installation

### Instructions for Downloading the Metafile

Edits for GenEDITS operate from a metafile. For NAACCR\_V18b, you may go to the Hospital Resources page of ASCR using the following link:

<http://www.alabamapublichealth.gov/ascr/hospital-resources.html>

To download to your computer's C:\RegPlus\EDITS50\GenEDITS Plus\Metafiles. You will need to unzip it once it is downloaded. Download the configuration file ASCRV18b.cfg from Hospital Resources page and unzip it to C:\RegPlus\EDITS50\GenEDITS Plus\Config.

### Instructions for Running Edits

1. Open GenEDITS Plus 5 program. If you have not downloaded the metafile and configuration file you will see the following when opening GenEdits Plus 5:

- 
2. If you have downloaded the metafile and configuration file, you will see the configuration file in the navigator pane like below. Please select ASCRV18b and click Open.

- 
- 
3. The following window should appear and on the right side, a selection of “Edit Sets” should be available. The ASCR:v18b NPCR/Hosp edit set should be selected. If not please select ASCR:v18b NPCR/Hosp (352) (NONE).
4. Choose Datafile Name by clicking on Browse and selecting the file you want to run edits on.
5. Make sure you are on the Run Edits tab and click on Run Edits.

There are **four other tabs** as you can see in the images below.

The **Report Identifier** tab will allow you to select fields to identify the record and for sorting.

The screenshot displays the ASCRV18b application window. The top menu bar includes 'File' and 'Reports'. Below the menu, there are several input fields: 'Metafile Name' (C:\RegPlus\EDITS50\GenEDITS Plus\Metafiles\NAACCR\_V18b.smf), 'Record Layout' (NAACCR v18 (RL00002) (NAACCR)), 'Edit Sets' (ASCR: v18b NPCR/Hosp), and 'Datafile Name'. To the right of these fields are 'Browse' buttons. Below these is a 'Configuration File Name' field (C:\RegPlus\EDITS50\GenEDITS Plus\Config\ASCRV18b.cfg) and a 'Configuration Name' field (ASCRV18b). A 'Comments' text area is also present. The main window has a tabbed interface with the following tabs: 'Run Edits', 'Report Identifiers' (selected), 'Report Setup', 'Edit Options', and 'Data Display'. The 'Report Identifiers' tab contains three columns: 'Fields Available for Record Identification', 'Fields Selected for Record Identification', and 'Fields Selected for Sorting Records'. The 'Fields Available' list includes items like 'HER2 ISH Dual Probe Ratio', 'HER2 ISH Single Probe Copy Number', 'HER2 ISH Summary', 'HER2 Overall Summary', 'Heritable Trait', 'High Risk Cytogenetics', 'High Risk Histologic Features', 'Histology (73-91) ICD-O-1' (highlighted), 'Histology (92-00) ICD-O-2', 'HIV Status', 'ICD-O-2 Conversion Flag', 'ICD-O-3 Conversion Flag', 'ICD Revision Comorbid', 'ICD Revision Number', 'IHS Link', 'Industry Source', and 'Inpatient Status'. The 'Fields Selected for Record Identification' list includes 'Patient ID Number', 'Primary Site', 'Behavior Code ICD-O-3' (highlighted), and 'Histologic Type ICD-O-3'. The 'Fields Selected for Sorting Records' list is currently empty. Navigation arrows are provided between the columns.

The **Report Setup** tab allows you to point to the location you want the report to be saved and you can select the Report Format it can be either in TXT and Word.

The screenshot shows the 'Report Setup' tab of the ASRCV18b application. The interface includes a menu bar with 'File' and 'Reports'. Below the menu bar, there are several input fields and buttons for configuring the report. The 'Metafile Name' field is set to 'C:\RegPlus\EDITS50\GenEDITS Plus\Metafiles\NAACCR\_V18b.smf'. The 'Record Layout' is set to 'NAACCR v18 (RL00002) (NAACCR)'. The 'Edit Sets' field is set to 'ASCR: v18b NPCR/Hosp'. The 'Datafile Name' field is empty. The 'Configuration File Name' is set to 'C:\RegPlus\EDITS50\GenEDITS Plus\Config\ASRCV18b.cfg'. The 'Configuration Name' is set to 'ASRCV18b'. There is a 'Comments' text area. Below these fields, there are tabs for 'Run Edits', 'Report Identifiers', 'Report Setup' (selected), 'Edit Options', and 'Data Display'. The 'Report Setup' tab contains fields for 'Report File Name' (set to 'C:\Users\FH1FSALI\Documents\2017 Extracted Data\20190129SecondRun\'), 'Summary Report File Name' (set to 'C:\Users\FH1FSALI\Documents\2017 Extracted Data\20190129SecondRun\'), 'Report Title', 'Report Subtitle', 'Report Format' (set to 'Text (.txt)'), 'Report Styles' (with 'Summary' and 'Detailed' checked), 'Lines Per Page' (set to 52), 'Omit Zero Counts from Summary' (checked), 'Start at Error Record', and 'Stop after Error Record'.

The **Edit Options** tab allows you to suppress edits, see edit details, and test edits.

The screenshot shows the 'Edit Options' tab of the ASRCV18b application. The interface includes a menu bar with 'File' and 'Reports'. Below the menu bar, there are several input fields and buttons for configuring the report. The 'Metafile Name' field is set to 'C:\RegPlus\EDITS50\GenEDITS Plus\Metafiles\NAACCR\_V18b.smf'. The 'Record Layout' is set to 'NAACCR v18 (RL00002) (NAACCR)'. The 'Edit Sets' field is set to 'ASCR: v18b NPCR/Hosp'. The 'Datafile Name' field is empty. The 'Configuration File Name' is set to 'C:\RegPlus\EDITS50\GenEDITS Plus\Config\ASRCV18b.cfg'. The 'Configuration Name' is set to 'ASRCV18b'. There is a 'Comments' text area. Below these fields, there are tabs for 'Run Edits', 'Report Identifiers', 'Report Setup', 'Edit Options' (selected), and 'Data Display'. The 'Edit Options' tab contains a table with columns: 'Edit Name', 'Edit Tag', 'Agency', 'Use Edit Set Options (997)', 'Suppress Edit', 'Skip Empty', 'Skip Failed', and 'No Skips'. The table lists various edit names and their corresponding tags and agencies. The 'Edit Name' column is expanded, showing a list of edit names. The 'Edit Tag' column shows the edit tag for each edit. The 'Agency' column shows the agency for each edit. The 'Use Edit Set Options (997)' column shows a checkbox for each edit. The 'Suppress Edit' column shows a checkbox for each edit. The 'Skip Empty' column shows a checkbox for each edit. The 'Skip Failed' column shows a checkbox for each edit. The 'No Skips' column shows a checkbox for each edit. The table is sorted by 'Edit Tag' in ascending order.
